

Free Waste Oil Pickup

The NCAPL has a formal arrangement with Safety-Kleen across NC. Members can now have their waste oil from forestry and high-way equipment picked up free of charge from a well recognized vendor. Members can support the NCAPL financially by donating any value received in the waste oil back to the association. Handle your waste oil correctly and support your logging association at the same time. It's simple to sign-up. Just contact Susan Caines at oilpickup@ncloggers.com. She will send you a donation agreement and get your shop location to arrange the first pickup. Once you get started you just call Safety-Kleen direct when your tanks are 80% full. Special arrangements are available to members who don't have a suitable waste oil tank and need one. Just ask Susan.
